

RIYA SHARMA

UI/UX Designer | Hyderabad, India | riya.sharma.demo@email.com | +91 91234 56789 | behance.net/riyasharma | linkedin.com/in/riyasharma

PROFILE

Aspiring UI/UX designer with a strong foundation in user-centered design, wireframing, prototyping, visual design, and usability principles. Passionate about turning complex problems into simple, intuitive digital experiences. Built multiple academic and self-initiated projects from user research and information architecture through high-fidelity prototypes. Seeking an entry-level UI/UX Designer or Product Designer opportunity.

EDUCATION

Bachelor of Design (B.Des.) — Communication Design

Woxsen University, Hyderabad | 2022 – 2026

Relevant coursework: User Experience Design, Interaction Design, Visual Communication, Design Research, Typography, Design Systems, Human-Computer Interaction

PROJECTS

CampusConnect — Student Community App

UX Case Study | Figma | User Research · Wireframing · Prototyping

- Conducted informal interviews with 12 students to identify challenges around campus events, clubs, and peer communication.
- Created user personas, user flows, information architecture, and low-fidelity wireframes based on research findings.
- Designed a high-fidelity mobile prototype with event discovery, club pages, announcements, and personalized recommendations.
- Iterated after usability testing with 5 users and simplified the event-registration flow from 6 steps to 3.

FinTrack — Personal Finance Dashboard

UI Design Project | Figma | Dashboard Design · Components · Responsive UI

- Designed a responsive personal-finance dashboard focused on making spending patterns easy to understand at a glance.
- Created reusable buttons, cards, inputs, navigation, charts, and status components as part of a lightweight design system.
- Developed desktop and mobile layouts while maintaining consistent spacing, typography, hierarchy, and interaction patterns.

Foodie — Restaurant Discovery Experience

Academic Project | Figma | UX Research · Interaction Design · Visual Design

- Redesigned a restaurant discovery flow to reduce friction between searching for a restaurant and viewing its menu.
- Mapped the user journey and created wireframes before developing a polished high-fidelity prototype.
- Applied accessibility-conscious typography, contrast, spacing, and component states throughout the interface.
