

KARAN REDDY

QA Automation Engineer | Bengaluru, India | karan.reddy.demo@email.com | +91 99887 66554 |
linkedin.com/in/karanreddy

PROFESSIONAL SUMMARY

Detail-oriented QA Automation Engineer with 2 years of experience testing web and API-based applications. Hands-on experience in test automation, regression testing, API validation, defect tracking, and CI/CD workflows. Strong understanding of software testing life cycles, Agile methodologies, and quality-focused collaboration with developers and product teams.

EXPERIENCE

QA Automation Engineer

CloudMatrix Solutions, Bengaluru | Aug 2024 – Present

- Developed and maintained automated UI test suites using Selenium with Java, reducing repetitive manual regression effort by approximately 45%.
- Created API test collections and automated validation for REST endpoints using Postman and Newman.
- Designed regression, smoke, integration, and functional test cases for customer-facing web applications.
- Integrated automated test execution into Jenkins CI pipelines and investigated failures to identify application defects and test instability.
- Logged and tracked defects in Jira while collaborating with developers during sprint planning, debugging, and release validation.

Junior QA Engineer

TechNova Digital, Hyderabad | Jul 2024 – Jul 2025

- Executed functional, exploratory, cross-browser, and regression testing for SaaS applications across Chrome, Firefox, and Edge.
- Wrote more than 300 manual test cases covering authentication, payments, user management, and reporting workflows.
- Participated in Agile ceremonies and worked with developers to reproduce, document, and verify production issues.
- Performed SQL queries to validate backend data and investigate discrepancies between application behavior and database records.

EDUCATION

Bachelor of Technology (B.Tech.) — Computer Science and Engineering

VNR Vignana Jyothi Institute of Engineering & Technology, Hyderabad | 2020 – 2024

TECHNICAL SKILLS

Testing	Functional Testing, Regression Testing, Smoke Testing, Integration Testing, Exploratory Testing, Test Case Design
Automation	Selenium WebDriver, Java, TestNG, Maven, Page Object Model
API & Data	Postman, REST APIs, JSON, SQL, MySQL
Tools	Jira, Git, GitHub, Jenkins, Chrome DevTools
Methods	Agile/Scrum, SDLC, STLC, Defect Lifecycle, CI/CD

PROJECT

E-Commerce Test Automation Framework

Built a reusable Selenium + Java + TestNG automation framework for an e-commerce application. Implemented page-object architecture, reusable utilities, parameterized test data, screenshots on failure, and HTML test reporting. Covered login, product search, cart, checkout, and order-history workflows.

CERTIFICATIONS

ISTQB Certified Tester — Foundation Level • Postman API Fundamentals • Selenium WebDriver Automation

ADDITIONAL

Languages: English, Telugu, Hindi | Availability: Immediate | Target Roles: QA Engineer, QA Automation Engineer, Software Test Engineer
